

Tell us how you are making a positive impact on our environment

Dear colleagues,

There are many of you championing the environmental cause in your personal lives, from re-forestry projects, growing your own food, composting at home, reducing energy consumption, supporting sustainable products and businesses and many other eco-friendly practices. Sharing your exceptional stories can inspire others to take action in their own lives as well. Every action counts to creating a sustainable world.

Send us your sustainability stories that follow these criteria:

- These initiatives must be supporting an environmental agenda, to reduce our negative impact on the planet
- These initiatives must be what you/your family adopt in your own personal lives

How to submit:

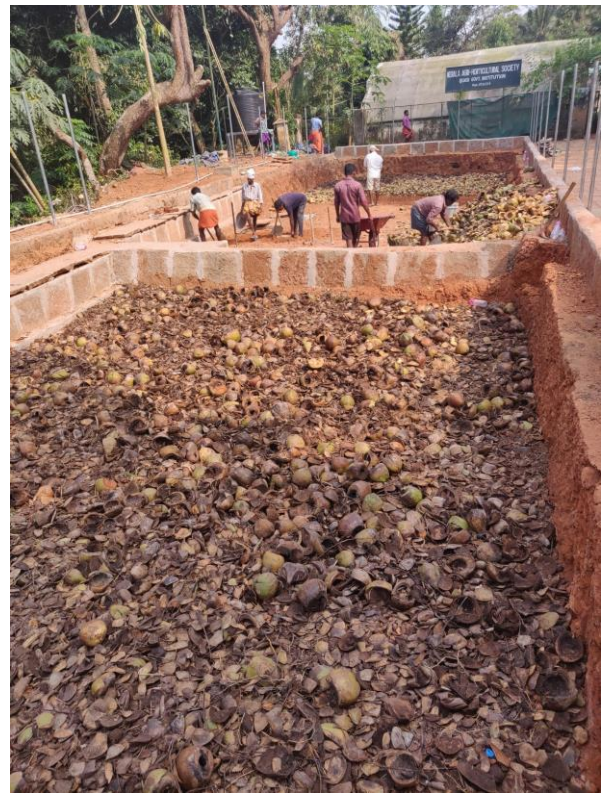

1	Narrative: Write a summary of your environmental initiative and why you are so passionate about it with a maximum of 300 words
2	Visuals: Share photos or videos showcasing the initiative
3	Share your story by e-mail to GroupESG@emiratesnbd.com

From your submissions, we will feature a selection of exceptional and inspirational initiatives in an upcoming series.

We look forward to hearing how you are taking steps to protect our planet.

Best regards,

Group ESG
